

(S) SCENT
trip

Paris . San Diego

Line Sheet

www.scentstrip-perfume.com

OUR MISSION

Scent (S)trip Perfume was created from a simple idea; to transport you on a unique journey through time and space while bringing comfort, pleasure, gentleness and peace.

Discover exotic countries, different cultures, amazing landscapes and ancient traditions with our scents. Each perfume/cologne puts a spotlight on one or two ingredients, local to a place or an era as a cornerstone of the perfume and builds a story around it, forging lasting memories and genuine emotions.

OUR PROCESS

All of our products are carefully crafted in California by our French perfumer in small batches and bottled by hand.

We include a large proportion of natural ingredients in our blends and use the cleanest, safest and most eco-conscious materials possible, without ever sacrificing product performance or artistry.

OUR BENEFITS

Smell UNIQUE:

Our formulas are developed by our French perfumer and based on original and creative concepts.

Feel UNIQUE:

Our fragrances are produced by hand in small batches in sunny San Diego, CA.

Be UNIQUE:

Our packaging is more eco-conscious than any other fragrance house on the market. Scent (S)trip glass bottles are refillable with kraft spout pouches and our cardboard boxes are recyclable.
